ASSUMPTIONS

- Scale calibrated to the shown 20 ft known dimension.
- Linear quantity measured along the marked partition centerline.
- Counts include only the six visible sample symbols.
- Areas are net traced boundaries; waste is not included.

EXCLUSIONS

- No labor, material pricing, tax, equipment, overhead, or margin.
- No hidden conditions, demolition, alternates, or unmarked scope.
- No revisions issued after the sample revision shown above.
- No engineering, code, constructability, or bid-completeness review.

ESTIMATOR REVIEW

- Confirm the latest drawing revision and a second known dimension.
- Compare every mark with plans, schedules, and specifications.
- Confirm openings, transitions, assemblies, and trade boundaries.
- Apply waste, labor, pricing, and bid logic in your estimating process.
